

IFCM Welcomes a New Board and a New Editorial Board for the International Choral Magazine

The International Federation for Choral Music (IFCM) held its General Assembly on 25 April 2023. Prior to the General Assembly, the election of the new Board of Directors was organized fully online (1 March – 1 April 2023). We can proudly say that this event has an historical significance in our association since this was the first time all individual IFCM members had the opportunity to vote individually, due to a change in the Bylaws approved at the General Assembly in Lisbon in September 2022. Other election changes include more democratic representation (votes) for the following member organizations: choirs (2 votes), local organizations (3 votes), national and regional organizations (10 votes), and international organizations (20 votes).

The election of the new Board of Directors was organized through an online voting system. An election committee was appointed to overlook the process and ensure fair and democratic results. The results were announced during the General Assembly, and, on 28 April 2023, the new Board named its Vice-Presidents, Treasurer, and Governance Advisor.
